OBJECTIVE

A web-oriented programming, development, or maintenance position.

EXPERIENCE

Building full web applications from concept to finished project, designing relational databases, reading error messages and interpreting code files to debug an application, learning new technologies as needed, writing and using web services and APIs, migrating large data sets using CSVs, and communicating with clients to detail project specifications.

SKILLS

HTML, CSS, Javascript, AJAX, jQuery, PHP, SQL, ColdFusion, Java, Object Oriented Programming, Version Control Systems, CSS Pre-processors, Digital Photography

EMPLOYMENT

Web Application Developer, DWebware; Urbandale, IA 2015-2016

Creating ColdFusion applications, monitoring and fixing errors, and managing content within a custom CMS.

Facilities and IT assistant, Christ Community Church; Ames, IA Summer of 2015

Running video mixing, audio mixing, lighting, presentation software, and cameras for church services.

Internet Sales Photographer, Wilson Toyota Scion; Ames, IA 2013-2015

Maintaining the vehicle inventory's visual web presence.

Kitchen Staff, Valentino's Grand Italian Buffet; Ames, IA 2013 Spring-Fall

Prioritizing work while preparing several orders at once.

EDUCATION

Des Moines Area Community College — Web Development AAS, GPA: 3.97

VOLUNTEER

The Praise Puppets, Christ Community Church

Puppeteer for five years, ministering to churches, youth groups, and assisted living centers. Experience working as a team, being responsible for finding what needs to be done, and planning ahead. Co-leader from 2013 to present.
